EXPERIENCE

Bharat

Frontend Developer

March 2023 - May 2023

- During my internship at Bharat, I gained hands-on experience working on various web development projects. This opportunity allowed me to apply my theoretical knowledge in a practical setting.
- I have a strong foundation in HTML, CSS, and JavaScript, which I utilized extensively throughout my internship. These technologies enabled me to create responsive, user-friendly web pages and interactive features, ensuring a seamless user experience.
- I honed my problem-solving skills and learned to work effectively within a team.

PROJECTS

Plexus

NodeJS, React, MongoDB, Express - Full Stack

Jan 2022

- Developed a comprehensive HR-Portal using the MERN Stack (MongoDB, Express, React, NodeJS).
- Designed the User Interface using ReactJS and Bootstrap.
- Streamlined HR processes by implementing a comprehensive employee management system, resulting in a 40% reduction in administrative tasks and saving an average of 20 hours per week.
- Utilized Node.js and Express.js to create APIs, with MongoDB Atlas as the database service.

Pizza point

ReactJS, Framer Motion, Bootstrap, CSS - Frontend Development

Oct 2022

- Built a dynamic Pizza Website enabling users to customize and place pizza orders based on their preferences.
- Designed the frontend using ReactJS, Framer Motion, Bootstrap, HTML, and CSS.
